

Fisher Hill Board Meeting – via ZOOM

Date: Monday, August 17, 2026

Time: 7:30 – 8:30pm

Agenda:

1. Issues raised and discussed at the FHA annual meeting.

a. Investigate allegations of overnight parking on Wallace Place.

M.Dalton stated that for several weeks after the CNA annual meeting he walked down Wallace Place both late and very early in the morning see for himself whether there was illegal overnight parking on Wallace Pl. He reported seeing a number of cars and a landscaper's commercial truck and covered trailer that appeared to be parking overnight on Wallace. These vehicles were not being "ticketed" for overnight parking. M.Dalton sent a letter to Police Chief McMahon, along with photos of the vehicles and asked that Patrol Car #11 please travel down Wallace to investigate whether there are cars parked on Wallace violating the overnight parking ordinance. The day after he sent the email Chief McMahon and for several days thereafter M.Dalton walked down Wallace very early in the morning. Curiously....there were no longer any cars parking on Wallace...but other cars on neighboring streets that had parked overnight were ticketed.

b. Investigate allegations of illegal occupancy of Bank owned property on Walton Ave.

M.Dalton stated that at the end of the Annual Meeting...a resident of Walton Ave asked to speak with him. The resident explained that she was in her front yard and observed a man in a suit and tie that had been standing in front of the home at 77 Walton Ave for an extend period of time. He then walked over to her yard to speak with her. The man said he was a representative of the Bank that owns 77 Walton Ave. He asked her if she knew who was living in the home at 77 Walton. She replied that she did not know the people living in the home...but, that there were certainly people living there...in fact...1 car in the driveway has been there for several months. The man then said to her that no one should be living in the home...it is Bank owned. The resident of Walton Ave asked if M.Dalton could find out more about what was going on at 77 Walton. M.Dalton reported that over the next several weeks he walked past 77 Walton at different times of the day....and there always were cars in the driveway. In the evenings there were often 3 & 4 cars in the driveway and front yard. M.Dalton took photos of the home and the autos parked at the home. M.Dalton sent an email to the Commissioner of Buildings where he recapped the information described above...along with the photos. M.Dalton asked that the Building Dept. look into the occupancy of 77 Walton. M.Dalton had a follow up phone conversation with Commissioner Hodapp in the past couple of days. The Commissioner explained that he did ask Code Enforcement to investigate the occupancy of 77 Walton...but, that he had not heard back from the officers looking into the matter. He also was able to look up information on the home at 77 Walton...and he confirmed that the home is listed on City systems as being "Bank Owned".

c. A request was made by a Fisher Hill resident living on Woodland Place regarding the parking regulations.

The resident explained that Woodland Place has “no parking” on both sides of the street. Anyone visiting her home...family and friends...needs to park in her driveway in order to avoid receiving a parking ticket. M.Dalton explained to the resident of Woodland Place that the City’s Parking and Traffic departments can conduct a poll of the homeowners on Woodland Place...and if a healthy majority of the homeowners vote to revise the parking regulations...then the Parking and Traffic will consider revising the parking regulations on the street. M.Dalton wrote to Commissioner Livingston of Parking & Traffic and explained that there is no legal street parking on Woodland Place and that a resident would like to have the Parking & Traffic department consider revising/updating the parking rules of Woodland Place. The Commissioner of Parking & Traffic called me to let me know that the resident of Woodland Place who had asked for my help with this issue....had contacted the Department of Parking & Traffic about 1.5 years ago and asked that the existing parking regulation on Woodland Place be revised to allow parking on the Woodland Place. The Department of Parking & Traffic conducted a survey of the property owners on Woodland Place. The results of that survey were: 1 person living on Woodland Place wanted to change the parking regulations on Woodland Place. That person was the same Woodland Pl. resident who asked for my help. The Commissioner asked, “did that Woodland Pl. resident tell you that the Parking and Traffic Department conducted a survey and no other residents wanted to change the existing parking regulations?” I answered, “no.”

d. Discuss concerns raised by Board Member Garner regarding M.Dalton’s management of the Questions and Answers posed to the Mayor by FHA members.

R.Garner thanked M.Dalton for including this item on the Agenda. R.Garner said that he felt the M.Dalton had responded to questions posed by several of the members of the audience as being too confrontational...the result being that several members of the audience were not able fully express themselves and discuss their particular issue with the Mayor. R.Garner said that several members of the audience were so uncomfortable with M.Dalton’s management of the the Mayor’s Q&A session that they left the meeting. M.Dalton responded by saying that the first 2 members of the audience asked their questions and the Mayor answered their questions. The Mayor’s answers did not satisfy the 2 audience members and those 2 individuals repeated their questions. In the case of the 1st audience member...when she repeated her question to the Mayor...I interrupted her....explaining that she and I had worked on the overnight parking issue on Wallace Place 2 years ago and that I would work on it again with her...but, that the Mayor answered her question. The Mayor told her to contact Police Department and ask them to enforce the overnight parking ban. In the case of the 2nd audience member...that person asked the Mayor about a large parcel of land that had been demo’d and excavated and that nothing had been done at the parcel of land for many years. The Mayor explained that the City is not the developer or owner of this property. The City does not control the construction schedule of the property. The 2nd audience member was not satisfied with the Mayor’s answer and then began shouting at the Mayor and the Mayor raised his voice in response. At that point, M.Dalton did inject himself into the issue. M.Dalton stated...that in a raised voice...he asked the audience member to stop shouting at the Mayor and to please sit down.

The 2nd audience member then began shouting at M.Dalton and M.Dalton repeated his request that the 2nd audience member stop shouting and sit down. In both of these cases...M.Dalton stated that he did not interrupt the audience members until one person repeated their questions after having heard the Mayor's answer and the second person began shouting at the Mayor. M.Dalton stated that when the annual meeting began...he reminded the audience that the Mayor and Mr. Hoch are our guests. You may hear something being said that you strongly disagree with...but, we are going to treat our guests with courtesy and respect. Both the 1st and 2nd audience members did not treat the Mayor with courtesy and respect and when that occurred...in interrupted them. J.Prout suggested that perhaps the FHA should designate a "sergeant at arms" be on duty during the FHA annual meeting.

2. Fisher Hill Association – September Block Party

M.Dalton had asked the membership at the annual meeting if they would like to see the FHA sponsor some types of "events" in the neighborhood...like a Block Party, a Concert In the Church, a neighborhood Clean Up. After his question...several members hands went up. R.Engelmann volunteered to organize a neighborhood Block Party. The Block Party date was set for September 19th...with a rain date of Sept. 20th. The Block Party will be held on Ridgeview Ave adjacent to the Ridgeview Congregational Church between Midland Ave and Tibbits Ave. R.Engelmann had obtained permits from the WPPD to restrict "thru" traffic between Midland and Tibbit on Ridgeview Ave during the Block Party. A Block Party committee has been formed to plan and execute the neighborhood party.

3. Launch of the Fisher Hill Association Website

M.Dalton reported that the 1st ever Fisher Hill website has been launched. The URL is: www.wp-fha.org The website Home page includes 3D map of Fisher Hill and White Plains. The website also includes an Events page, a Neighborhood Posting page, an Agendas page, an About page (history of Fisher Hill), a Join FHA page and a Contact page.

4. FHA Treasurer Update

Joann McLaughlin was elected Treasurer at the June annual meeting. Joann and I visited the Mamaroneck Ave Chase Bank to make her a signatory on the Fisher Hill bank account. M.Dalton reported that he had transferred the FHA check register to Treasurer McLaughlin. The bank balance at Chase Bank \$2933.34

5. Postal Mail not being delivered

H.Waldman has experienced a number days over the past several months when he did not receive any mail. H.Waldman reported that he has spoken or attempted to speak with the Postmaster at the White Plains Post Office. He has also spoken with a number of different postal carriers as to why the mail is not being consistently delivered. The postal carriers explained that our neighborhood...with its up & down hills is physically very demanding...and not a route that many carriers want to take on. Several other Board members confirmed that they had also had days where they did not receive mail. H.Waldman suggested that perhaps the FHA could meet with the Postmaster to share our concerns and to hear the challenges that the Postal Service is currently experiencing.

6. DPW trash collection schedule changes

H.Waldman reported that because the DPW has changed the time of trash collection on Mondays and Thursdays...the automated truck is unable to grab his garbage bins because of the parked cars in front of his home. The cars in front of H.Waldman's home belong to folks attending meetings at the Church on Monday & Thursday mornings. The DPW historically picked up the trash on Ridgeview between Midland and Tibbits prior to 9am...prior to the meetings at the Church and the arrival of parked cars in front of his home. This is a potential subject to raise with the DPW at a "Mayor's Office Meeting" in the fall.

7. New issues, concerns and topics in our Fisher Hill neighborhood.

M.Dalton did not recall any new issues, concerns or topics being raised by the Board members at the end of the meeting. The meeting was then adjourned.
